

REMARKS

Claims 13 and 21 have been indicated as allowable if amended to be rewritten to be in independent form including the base and any intervening claims. The features of claims 12 and 13 have been incorporated into claim 1. Claim 1 has been amended to remove reference to "the mounting portion having an annular wall", "the annular wall of", "said annular wall", and "a central axis of said mounting hub" in claim 1 in response to an objection raised by the examiner that there is no antecedent basis for the "said mounting hub". In line 13 of the claim "said central mounting portion" was inserted to replace "said annular wall" since "said annular wall" as associated with the central mounting portion. The annular wall is not required for patentability and was removed because of its association to the "said mounting hub". Claims 12 and 13 have been canceled. The features of claims 19-21 have been incorporated into claim 14. Claims 19-21 have been canceled. In claims 8-10, "brake" was added to be consistent with the previous claims.

In view of the amendments to the claims noted above, it is respectfully submitted that all pending claims are now allowable and a notice of allowance is solicited

The Examiner is respectfully requested to call the undersigned if further changes are required to obtain a notice of allowance.

Respectfully submitted,

Warren Lin
